Simpson County
Development Foundation

What's In It For YOU?

We exist to generate development in the economy of Simpson County. We strive for positive change in all aspects of the quality of life in our community through the development of businesses and projects that are productive and lasting. ***This is what's in it for you!***

- **Effective communication** with our existing businesses and industries;
- Development and expansion of our existing business and industrial base - **more and better paying jobs for individuals and families living and working in Simpson County;**
- Contact and coordination with a host of different partners working for the economic development of our community, partners including numerous corporations, local and regional businesses, public officials and governmental entities, and other local organizations and individuals, **all working together to make Simpson County a better place to live;**
- **We make these goals real** by maintaining and coordinating communication through city and county governments, and our schools both public and private, local and regional financial entities and the private business sector. We are also a conduit for state and federal funding opportunities when the need arises.

Services We Offer Our MEMBERS

• We are currently developing a Healthcare Master Plan, that will allow for economic development opportunities for health-care and feeder type businesses.

• We can assist in the development of educational workforce training. This can be business specific if the numbers for making classes are available.

• We work with local governments to make available future development opportunities within our community.

• This includes environmental studies, assistance with site selection and financial assistance. We also work as a liaison for prospects and governmental agencies to help meet building as well as expansion opportunities.

• We are available to assist with business plans or expansion plans.

• Our staff, as well as our volunteer board are available to assist in helping make business grow whatever the challenges are for any existing or prospective business.

About Us

We were founded in 1979. We are a private sector organization of volunteers that works to create development opportunities within the county. Our board of directors consists of 12 volunteers from all different segments of the community. We have two paid staff members. Our executive director is full time and we have an office director. We are funded through two primary sources, private memberships and through a contract with the Simpson County Development District. The district is an appointed board by the Simpson County Board of Supervisors. They fall under the public appointed provisions of the law because they are a subcommittee of the board of supervisors.
